Why Airwoods Freeze Dryer?

SMALLER SIZE WITH BIGGER CAPACITY

The Airwoods Freeze Dryer has an elegant design with smaller size. There are five trays with a surface area of 0.44m². It has a bigger freeze drying capacity of 15.5%, less drying time of 15% and less energy consumption of 15%.

HIGH QUALITY

Main components from the world's leading brand such as Cubigel compressor and upgraded electronics enhance reliability. In addition, the quality of freeze-dried food is better and processing is faster.

SMART CONTROL

User friendly touch screen control, easy to use. All freeze drying processes run automatically with the intelligent control logic based on the detected temperature and pressure sensors in the freeze chamber. It has very smart functions like power failure memory function, exhaust valve not closed reminder or vacuum oil change reminder.

INDUSTRIAL PUMP

At no extra charge, the units come with a famous brand industrial vacuum pump that is better and more reliable than any other pump out there. The specially designed oil filter included in each package increases the number of vacuum oil cycles, saving time and money for oil changing.
